

Boscotek Linefeed Trolleys

Product Dimensions

Linefeed	Height (mm)	Width (mm)	Depth (mm)
Single	1470	670	610
Double	1470	1320	610

Features & Benefits:

Louvre Panels

- Modular design enables custom configuration of trays and louvre panels to suit individual storage requirements.
- Louvre panels are supplied as standard and can be used in conjunction with most industry standard plastic hanging bins.

Castors

- Supplied standard with heavy duty castors offering reliable mobility and a UDL capacity of 400kg (670w) and 600kg (1320w).

Handle

- Linefeed trolleys incorporate a strong handle to assist movement of the units around the work environment.
- Take components to the workstation or line where they are being used quickly and easily.

Construction

- Fully welded 3mm mild steel construction provides increased structural stability.
- Tray positioning slots are integrated into the frame at 25mm intervals to allow flexible configuration of trays.
